VHF Marine Radiotelephones

US Dollars

157	VHF FM DSC Radio with SC101 operations The SEA 157 with USCG approved SC101 technology offers high performance and DSC operations for all marine VHF applications. For operation on 13.6 VDC negative ground.	\$799.00
157SD	DSC VHF/FM Radiotelephone with Class D GMDSS operations The SEA 157S with Microprocessor and DSP technology, dual receivers and a graphics display offers new levels of features and performance, along with Class D DSC operation for all marine VHF applications. For operation on 13.6 VDC negative ground. Available April 2007.	\$999.00
157SA	DSC VHF/FM with Class A GMDSS operations / supplied with external 12/24VDC Power Converter. Available April 2007.	\$1,799.00
157SA/R	DSC VHF/FM with Class A GMDSS and capable of Remote operations/ supplied with 24/12VDC External Power Converter. Available April 2007.	\$1,999.00

157/157S Furnished with: Standard palm microphone, trunnion mounting bracket, flush mount brackets and operator's manual

157/157S Options and Accessories:

VR4 JB	Junction Box for up to 4 Remote 157SA/R units	\$775.00
ASP -20-C	20 Pin Connector for 157SA/R Remote models, Male /Female bulk pack	\$125.00
MIC-0157-M9	Standard palm microphone	\$49.00
MIC-0002-031	Handset with cradle	\$199.00
KIT-0157-30	Flush mount Kit	\$45.00
SPE-0500-25	Remote speaker with bracket	\$55.00
OPR-157	Operator's manual	\$19.00
OPR-157SD	Operator's manual for Class D	\$55.00
OPR-157SA/R	Operator's manual for Class A & Remote	\$75.00

7157	VHF/FM Radiotelephone with Integral Class A DSC The SEA 7157 includes an integral Class A DSC and Channel 70 watch receiver for all commercial and recreational applications. GMDSS approved. For operation from 12 or 24 VDC (internally strappable) isolated, positive, or negative ground.	\$2,199.00
-------------	---	-------------------

7157 Furnished with: Standard palm microphone, trunnion mounting bracket, accessory connector and operator's manual

7157/7157H Options and Accessories:

MIC-235-M9	Standard palm microphone	\$49.00
MIC-0002-031	Handset with cradle	\$199.00
SPE-0500-25	Remote speaker with bracket	\$55.00
KIT-0235-30	Flush mount kit	\$199.00
OPR-7157	Operator's manual	\$49.00
MAN-7157	Service manual	\$65.00

SEAHAIL Loudhailer

US Dollars

857	60-Watt Loudhailer with Intercom The SEA 857 loudhailer offers 60-watts hailer output (into 4 ohms horns) and 5-watt intercom capabilities for commercial and recreational shipboard communications. For operation on 13.6 VDC negative ground.	\$799.00
------------	---	-----------------

857 Furnished with: Standard palm microphone, trunnion mounting bracket, flush mount brackets and operator's manual

857 Options and Accessories:

MIC-0157-M9	Replacement palm microphone	\$49.00
SPE-8000-01	60-watt projection horn, 6"x9", with stainless hardware	\$279.00
INT-8000	Remote intercom speaker with call button and bracket	\$59.00
SPE-0500-25	Remote speaker with bracket	\$55.00
KIT-0157-30	Flush mount Trim Ring	\$45.00
OPR-857	Operator's manual	\$15.00

SSB Marine Radiotelephones

US Dollars

235	150 Watt MF/HF/SSB Radiotelephone Email compatibility, and multi-mode "HAM" operating system for use in a wide variety of applications. For operation on 13.6 VDC negative ground.	\$2,199.00
235CF	SEA 235 with Cooling Fan Option	\$2,249.00
2350	SEA 235/2351/2351D Remote Controller (Up to four 2350 Remote controller may be installed.) <i>Note: Required controller interconnect cable (CAB-2250-XXX) sold separately.</i>	\$599.00
2351	SEA 235R Remote Transceiver	\$1,899.00
2351CF	SEA 2351 except with cooling fan installed	\$1,949.00
2351D	SEA 2351D Remote Transceiver for Data Note: requires 1631 Tuner	\$2,249.00
235/2351 Furnished with: Standard palm microphone, trunnion mounting bracket and operator's manual		
235/2351 Options and Accessories:		
MIC-0235-M9	Standard palm microphone	\$49.00
MIC-0002-031	Handset with cradle	\$199.00
CF235	235/2351 Cooling fan kit	\$50.00
KIT-0235-30	235 Flush mount trim ring/bracket	\$199.00
KIT-2350-06	2350 Flush mount brackets and trim ring	\$85.00
SPE-0500-25	Remote speaker with bracket	\$55.00
OPR-235	235/2351/2351D Operator's manual	\$39.00
MAN-235	235/2351/2351D Service manual	\$65.00
MAN-0001-001	Mariners Guide	\$29.00
CAB-2250-XXX	2350/2450/3300 Controller interconnect cable - bulk (lengths in excess of 150' in 50' increments - special order)	\$4.50 Per. FT
245A2	100/50 Watt MF/HF/SSB Radiotelephone for A2 GMDSS operations 24 VDC power operation. Available March 2007.	\$3,949.00
245A2-M	100/50 Watt MF/HF/SSB Radiotelephone with A2 operations and SEATOR modem 24 VDC power operation. Available April 2007.	\$4,299.00
2450	SEA 245/2450 Remote Controller for 2451 A2 or A3 transievers (Up to four 2450 Remote controller may be installed.) <i>Note: Required controller interconnect cable (CAB-2250-XXX) sold separately. Available March 2007.</i>	\$1,049.00
2451A2-M	100/50Watt Remote MF/HF SSB Transeiver unit with A2 operations & SEATOR modem 24 VDC power operation. Available March 2007.	\$3,949.00
2451A3-M	150/100/50 Watt "continous duty" MF/HF SSB Transiever with A3 Controller / DSC Receivers & SEATOR modem 24 VDC power operation. Available July 2007.	\$4,949.00
245/2451 Furnished with: Standard palm microphone, trunnion mounting bracket and operator's manual		
245/2451 Options and Accessories:		
MIC-0235-M9	Replacement Palm MIC	\$49.00
MIC-0002-031	Handset with cradle	\$199.00
KIT-0235-30	245 Flush mount trim ring/bracket	\$199.00

Data Communications Radio Equipment

US Dollars

2320	SEABUSS to RS232 interface unit (required for email)	\$499.00
3000G	SEATOR Radiotelex Modem The SEA 3000G provides ship-to-ship and ship-to-shore radiotelex communications. The SEA 3000G is compatible with SEA and most other SSB radiotelephones. GMDSS approved. For operation on 8-32 VDC negative ground.	\$949.00
3000G Furnished with: Mounting tray, radio interconnect cable and PC serial interconnect cable		
3000G Options and Accessories:		
SFW-3000W-01	Windows PC application for SEATOR Modems	\$249.00
JNDZ-127-S1	Data Terminal w/SEA software for use with 3000G	\$5,499.00
6606HF	Color LCD Message Terminal w/keyboard for use with 3000G	\$5,499.00
OPR 3000G	Operator's manual	\$35.00
MAN-3000G	Service manual	\$45.00
7000G	SEACALL DSC HF/SSB Controller The SEA 7000G provides DSC, Necode, and advanced distress capabilities to an external SSB radiotelephone offering enhanced communications and safety. Operates on 12 VDC (-10%/+30%) isolated ground.	\$1,549.00
7000G Furnished with: Trunnion mounting bracket and operator's manual		
7000G Options and Accessories:		
7003	VHF or MF/HF Remote Alarm	\$399.00
KIT-0225-30	Flush mounting bracket	\$199.00
OPR-7000G	Operator's manual	\$45.00
MAN-7000	Service manual	\$49.00
7001G	SEAWATCH MF/HF Guard Receiver The SEA 7001G Watch Receiver works in conjunction with the SEA 7000G and SEA 330-GMD for operation from 10-14 VDC. The Receiver watches 2187.50 kHz and scans all MF/HF DSC channels.	\$1,949.00
7001G Furnished with: SEAWATCH Receiver, gimbal bracket, bridge instruction card and service manual		
7001G Options and Accessories:		
KIT-0225-30	Flush mounting kit	\$199.00
FAB-0225-27	Stack mounting bracket for SEA 7001G and SEA 7000G	\$99.00
OPR-7001	Bridge Card 12	\$10.00
MAN-7001	Service manual	\$49.00

SSB Antenna Tuners

US Dollars

1612C	1.6–30MHz 150-Watt Automatic Antenna Tuner The 1612C is a weatherproof automatic antenna tuner designed for use with any 1.6 – 30 MHz, 150-watt transceiver. The 1612C accommodates most antenna configurations where tuning in the 4-meg and under bands is difficult. For operation on 13.6 VDC negative ground	\$995.00
1612C-B	As 1612C except with balanced output	\$1,449.00
1612WX	1612C with Antenna Grounding System	\$1,199.00
1612C Furnished with:	Hardware and installation manual	
1630-00	1.6–30MHz 300-Watt Automatic Antenna Tuner The 1630 is a weatherproof automatic antenna tuner specifically designed for use with the SEA 330 system. For operation on 13.6 VDC negative ground. Note: Required tuner interconnect cable (CAB-1630-XXX) sold separately.	\$1,449.00
1630B-B	As 1630 except with balanced output.	\$1,499.00
1631	1.6–30MHz 300-Watt Automatic Antenna Tuner for SEA 235D The 1631 is a heavy duty weatherproof automatic antenna tuner specifically designed for long duty cycle use with the SEA 235D system. Note: Required controller interconnect cable (CAB-2250-XXX) sold separately. For operation on 13.6 VDC negative ground.	\$1,449.00
1630/1631 Furnished with:	Hardware and installation manual	
1630/1631 Series Options and Accessories:		
CAB-1630-XXX	1630/1631 Tuner interconnect cable - bulk	\$4.50 Per. FT
